IMPORTANT:

The security of your Phone and Internet banking Access Code is very important and you must make every effort to ensure that your access code is not misused, recorded, lost or stolen. You should not record or disguise your access code on any item that identifies your Phone or Internet Banking access code including on the device that you use to access Phone / Internet Banking. To secure any online experience through the identification of any viruses and trojans etc, we recommend that your system is protected by:

- > Continually updating your operating system with the latest security patches
- > Installing, regularly updating and running the latest anti-virus software
- > Installing a firewall
- > Updating your browser with latest security patches
- > Installing Anti-Spyware software & regularly scan your machine
- > You are urged not to conduct Internet Banking from an unsecured or public terminal: eg Internet Cafe / Library

For full Terms and Conditions on Internet Banking and for more information and security tips please refer to our Web site.
